PacFed Benefit Administrators

(PacFed) has set the standard for the administration of fully insured private health insurance exchanges for more than 30 years.

The **Public Entities Private Exchange** uses group purchasing power to provide public entity employers access to California's most competitive and highest quality health benefit plans, as well as dental, vision and life coverage.

Public Entities Plan

The Public Entities Plan is an alternative group insurance program for public entity employers.

Eligible Employers

To be considered for participation, an employer is required to have a minimum of fifty (50) eligible employees.

Eligible Employees

The plan can cover bargaining and non-bargaining unit workers at public entity employers. Employee eligibility is determined by the employer and in accordance with the public entity's collective bargaining agreement or memorandum of understanding.

Coverage Area

The exchange is able to provide coverage to employees who work in the state of California.

Why PacFed?

PacFed's team provides consolidated billing, on-site open enrollment, complete member services and direct claims support from a single source. COBRA administration, compliance, regulatory and fiduciary burdens are shifted to the private health insurance exchange.
